meetings with leaders in the medical, biotechnological, agricultural and technological industries

presentation of the international partners

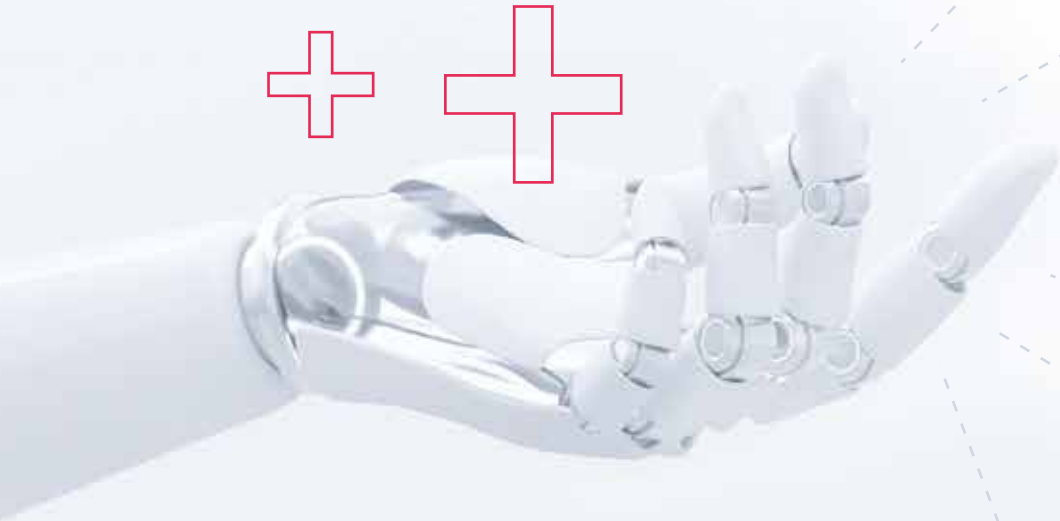

#CEBioForum2022

# Our history

CEBioForum 2022 is special in many ways. One of them being the 20th edition of the first event devoted to biotechnology development in Poland and other European countries. In previous years the expo took place in Budapest (Hungary), Brno (Czech Republic), Łódź (Poland) and New York (USA). This year in May we will welcome you in Warsaw (Poland).
